For more information or to submit an application contact Lt. Daniel Fournier at #414-768-8060

We, the members of the South Milwaukee Police Department, are dedicated to providing a proactive, full service department that enhances the quality of life in our community by reducing crime through the protection of life and property.

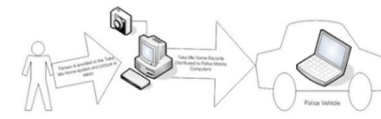

What is Take Me Home?

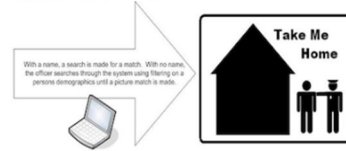

The South Milwaukee Police Department Safety Roster was adopted from the Take Me Home program. Take Me Home is a database originally developed by the Pensacola Police Department for people who may need special assistance if they are alone or in times of emergency. This kind of assistance may be required if the person is unable to speak or properly identify themselves, or if they become disoriented or act in a manner that could be misinterpreted by first responders.

Families with loved ones diagnosed with any forms of autism, dementia, or other cognitive disabilities are encouraged to register their loved one. The system includes a current digital picture, demographic information, and caregiver contacts. If one of our police officers encounter a person in the Take Me Home system, our officers can query the Take Me Home system, searching by name or by the person's physical description. The South Milwaukee Police Department has made the commitment to use the program and gather and maintain the individual enrollment records.

USING THE SYSTEM

How Does it Work?

Once the information sheet is filled out and dropped off at the police department, the information is placed in a database that can be accessed in squads or at the station. If our officers find someone who has difficulty communicating, we will search the database, attempt to identify the individual and reunite that person with their family. In addition, if your loved one goes missing, we have immediate access to a photo and other information that will help us during our search.
